

ENHANCED FEATURES at the SAME PRICE

Improved Hanger Rail

- A1** Newly designed flange eases flashing installation – just slide the flashing into the flange
- A2** Increased roof slope capacity improves roof line aesthetics
- A3** Integrated top caulking channel simplifies caulk dispensing

Enhanced Gutter Design

- B Increased Strength:** stronger and thicker aluminum allows for increased span widths
- C Easier Maintenance:** wider opening (1/2") makes cleaning even easier

Interested in learning if the new and improved gutter system can work on your patio design? Contact your AS&D customer service rep or Contact Us at americanstructures.com. We will get back to you, typically within one business day.
